**Bleed Area**  
Make sure that your background extends to fill the bleed to avoid your Business Cards having white edges when trimmed.

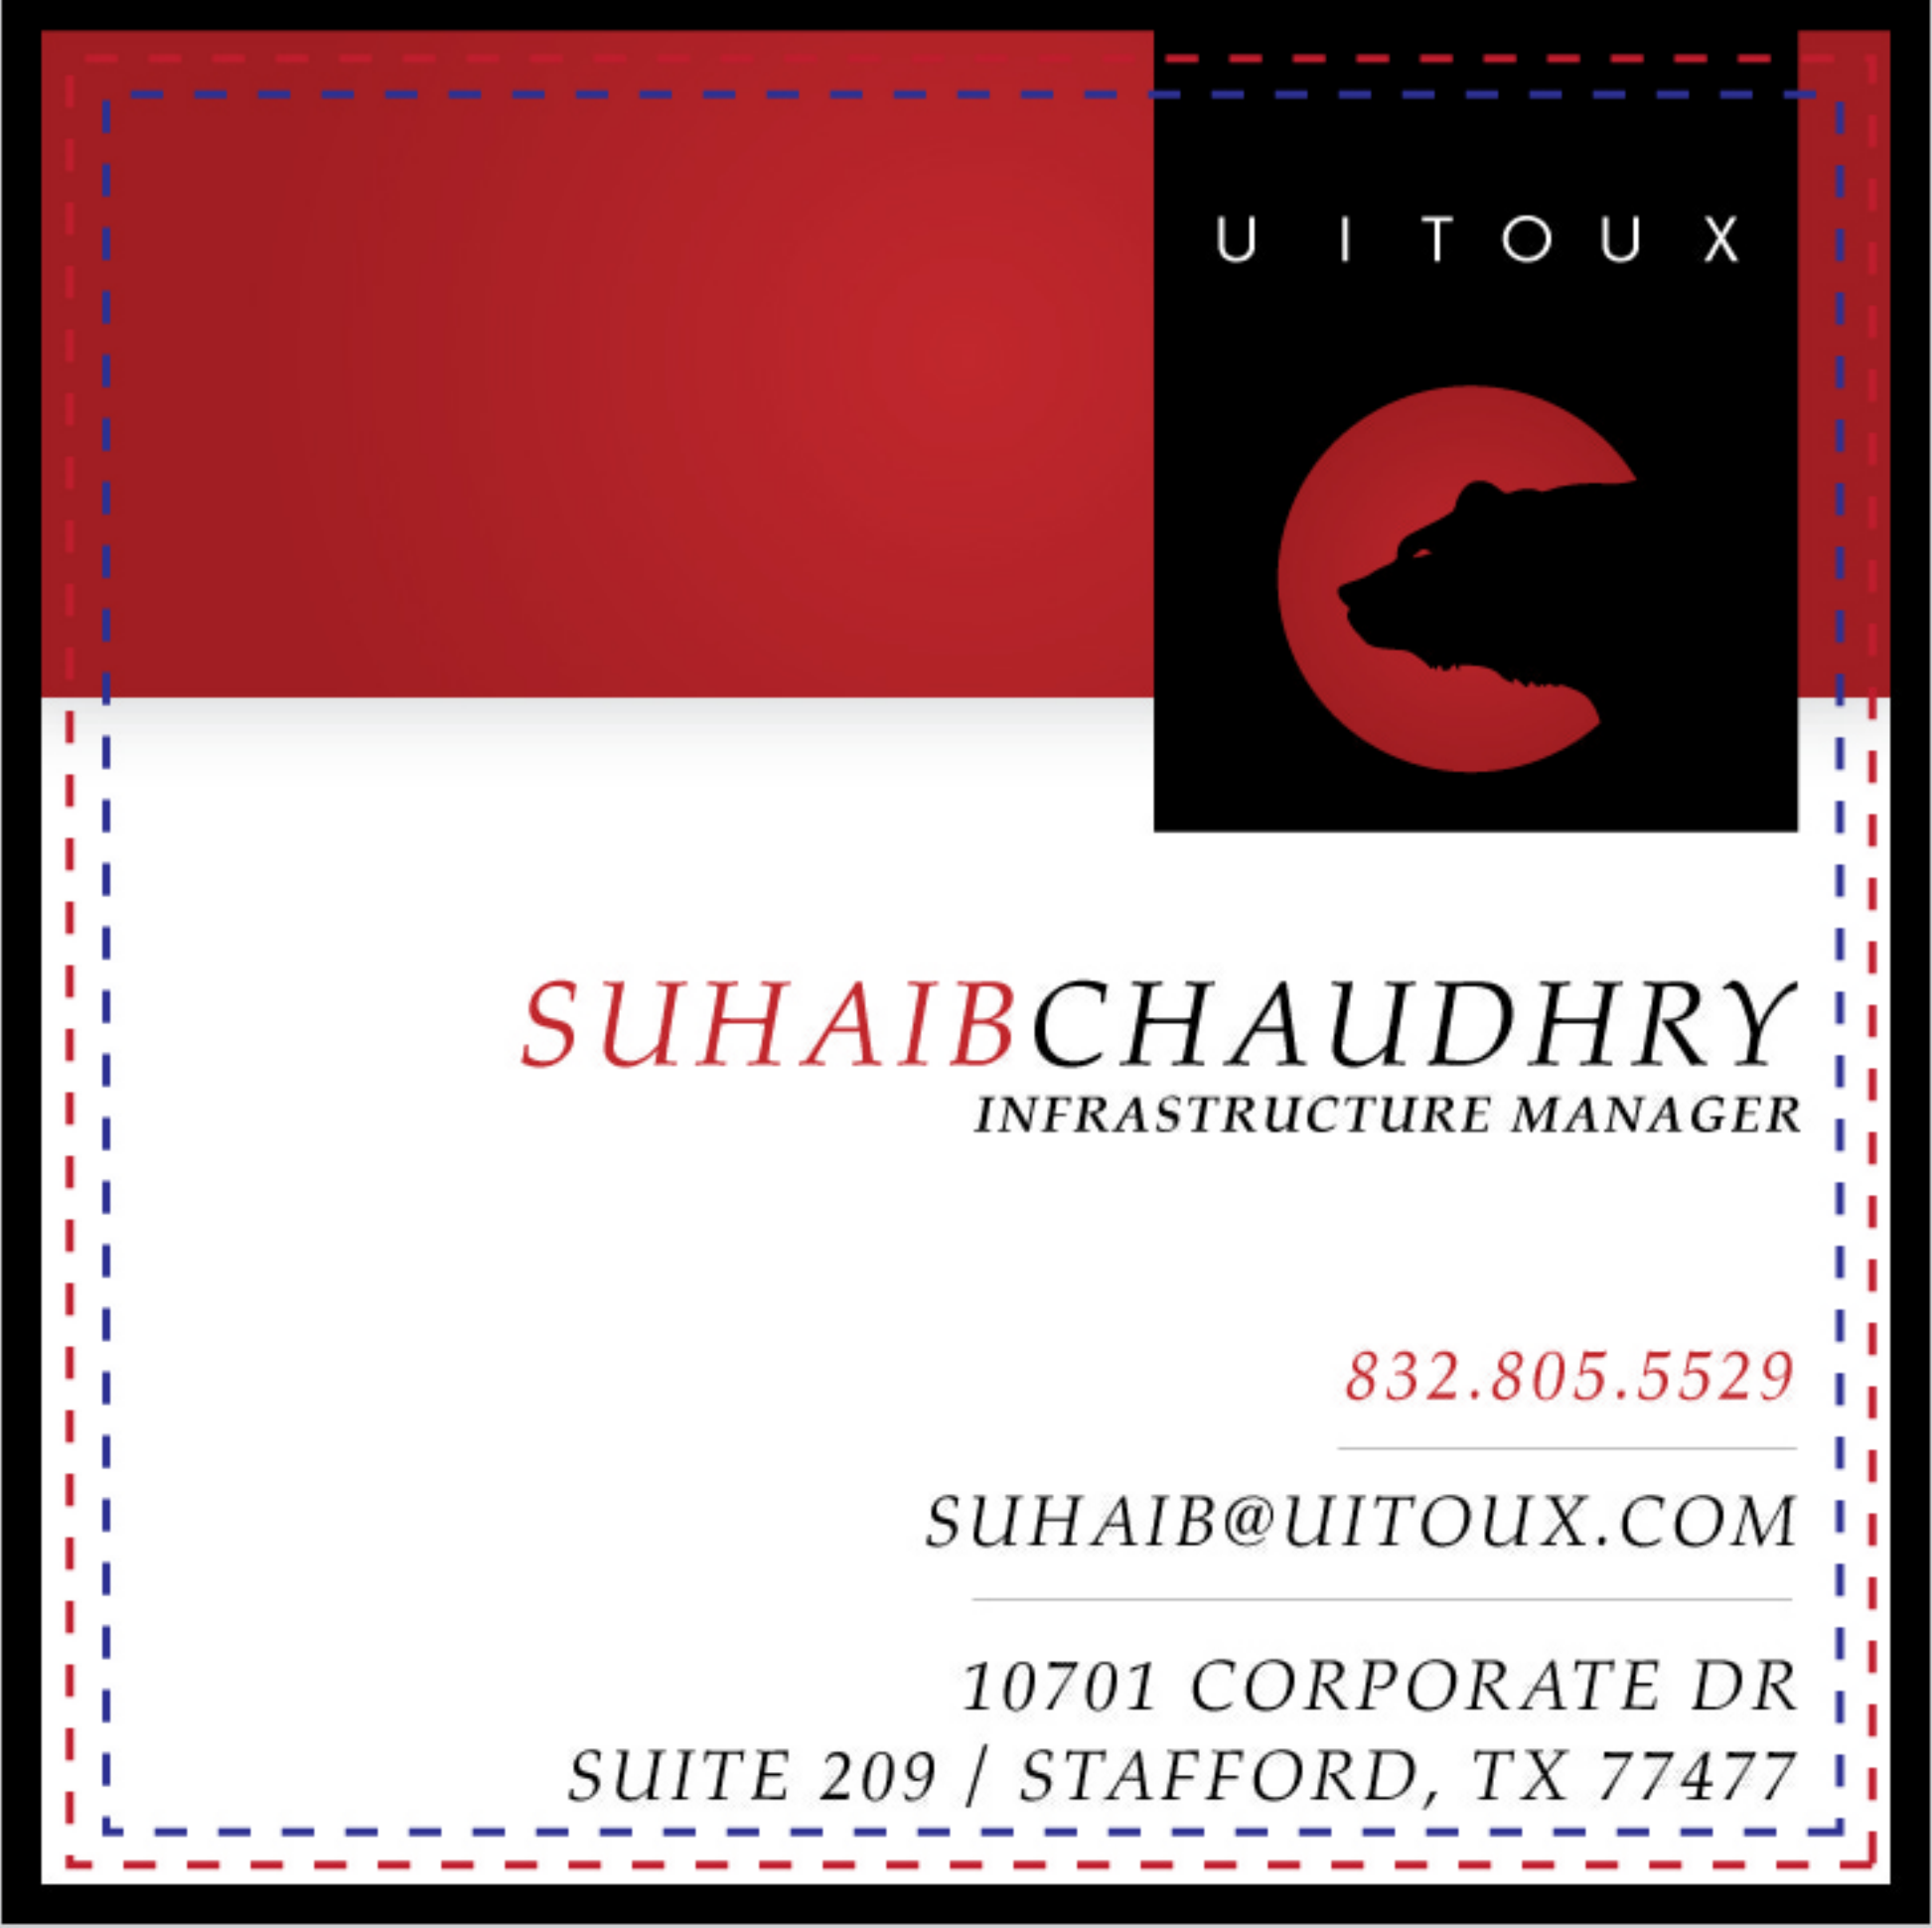

**Cut Line**  
This is where we aim to cut your artwork. Make sure any images and backgrounds go past this line to avoid white edges on the final product.

**Safety Line**  
Make sure anything important is within this line.

### File types

- pdf (recommended)
- jpg
- jpeg
- tif
- tiff
- eps
- png

### Color Setting

Always design in CMYK.

\* Designing in RGB can sometimes result in a color shift when printed.

These are colors in RGB

These are the same color in CMYK

### Resolution

Low res images tend to not print well. Make sure your images are at least 300 dpi.

72 dpi

vs

300 dpi
